SUMMARY

I am a skilled developer with a strong foundation in the MERN stack, which includes MongoDB, Express.js, Node.js, and React.js. My expertise extends to multiple programming languages, including Java, JavaScript, PHP, and SQL, enabling me to build and manage both front-end and back-end systems effectively. My technical skills are complemented by a solid understanding of web development best practices and a commitment to delivering high-quality software solutions.

EDUCATION

Master Of Computer Applications M.C.A

Amity University • Noida, Uttar Pradesh, India • GPA: 76 • 12/2023

Bachelor Of Computer Applications B.C.A

Vivek College Of Education • GPA: 62 • 12/2021

WORK EXPERIENCE

MilestoneOs • Delhi   07/2023 - 01/2024

MERN-STACK Developer   (Internship/training)

- Developed and maintained full-stack web applications using the MERN stack, with RESTful APIs and third-party service integration.
- Created dynamic front-end interfaces with React.js, ensuring responsive design and using Redux for state management.
- Worked with teams in an Agile environment, participated in daily meetings, and used GitHub for version control.
- Created user interfaces with React.js, ensuring they work well on all devices.

I Neuron   02/2023 - 05/2023

Web Developer Intern

- Assisted in front-end and back-end development tasks, including HTML, CSS,
- JavaScript, PHP, and database management.
- Creating a website for Gym management system.

Azure Skynet Pvt Ltd • 04/2022 - 05/2022

Android Application Intern

- Collaborated with a team of developers to create and enhance Android applications, focusing on user interface design and functionality.
- Gained hands-on experience in mobile app development, Android Studio, and Java programming.

- Contributed to the testing and quality assurance processes to identify and resolve issues.
